FCST-CR120-ELB90-CVR 90° Horizontal Elbow Elbow Cover

The 90° horizontal elbow cover is a protective component for the horizontal bend section at corners within the fiber optic raceway system. Used in conjunction with the raceway base, it covers the routing path at the bend, providing physical protection while maintaining the system's overall aesthetics and enclosure integrity.

- Compliant with the UL94-V0 fire safety standard.
- Designed as a cover for the 90° horizontal elbow in 120mm fiber optic raceway systems.
- Provides enclosed protection that effectively blocks dust, debris, and rodents, thereby reducing transmission failure rates and extending the service life of the cables.

Product Specifications

Construction	Description
Material	ABS
Flame-retardant Rating	V0
Packaging	90PCS/CNT 11.7KG
Weight	130g

Product Structure

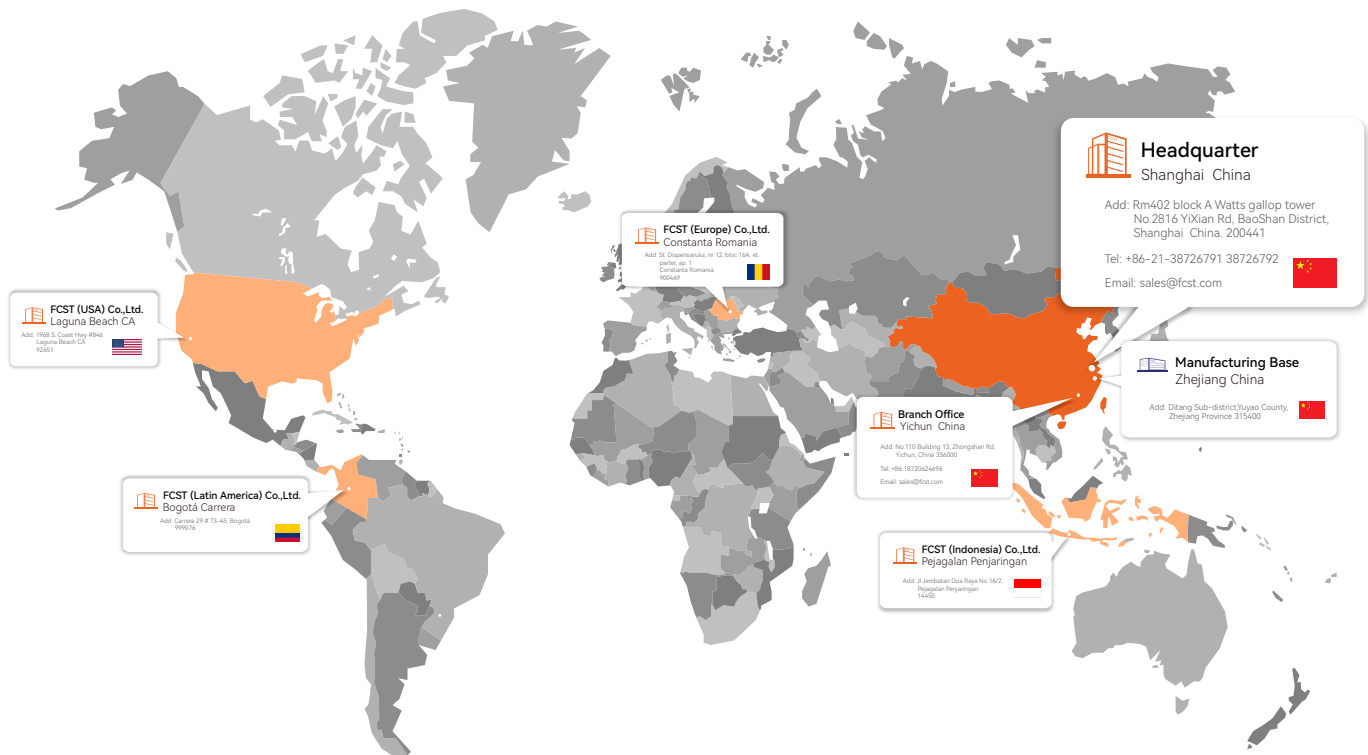

Unit:mm

Better FTTx, Better Life.

Fiber Cable Solution Technology Co.,Ltd.

FCST - Better FTTx, Better Life.

At FCST, we manufacture top-quality microduct connectors, microduct closure, telecom manhole chambers and fiber splice boxes since 2003. Our products boast superior resistance to failure, corrosion, and deposits, and are designed for high performance in extreme temperatures. We prioritize sustainability with mechanical couplers and long-lasting durability.

FCST aspires to a more connected world, believing everyone deserves access to high-speed broadband. We're dedicated to expanding globally, evolving our products, and tackling modern challenges with innovative solutions. As technology advances and connects billions more devices, FCST helps developing regions leapfrog outdated technologies with sustainable solutions, evolving from a small company to a global leader in future fiber cable needs.
